Hiring Manager,

This letter's purpose is to express my interest in becoming a great asset to your studio as a Design Assistant. I have had five years of artistic experience with many different programs and art forms, and three months of web designing and development. While I am experienced with HTML, CSS, and JavaScript, I shine the most when it comes to design and illustration.

I am very passionate about learning new skills and collaborating with others on projects. I also am open-minded about design-choices and am willing to make appropriate changes to designs when deemed necessary. In this letter, I have attached a resume that details my experiences in work, Illustration and Web Design, as well as a portfolio showcasing my skill. Thank you for taking time to view my resume and I look forward to speaking with you more about this opportunity in the future.

Best Regards,

Jamilabelah Caraballo
